# Cable Trail

Cable Bay is a must-see for the mid-Island explorer! Be sure to walk the extra kilometer to Joan Point Park at Dodd Narrows. Here you will find the site of a powerful tidal current. There is a lot of sandstone beach to explore, especially at low tide.

You can sit on the moss and watch boats as they are carried through the rocky channel, seemingly by ancient monsters.

The Cable Trail is just 13 km South of Nanaimo, 20 min by car. Follow South on the Island Hwy, turn left on Cedar Road, right onto MacMillan Rd, left on Holden Corso Rd., left onto Barnes Rd., and then finally left onto Cedar Heights Crescent. Keep going straight – parking is at the end.
